Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Monica is interested in finding a treasure but the key to opening is to get the sum of the main diagonal elements and secondary diagonal elements.

Write a program to help Monica find the diagonal sum of a square 2D array.

Note: The main diagonal of the array consists of the elements traversing from the top-left corner to the bottom-right corner. The secondary diagonal includes elements from the top-right corner to the bottom-left corner.

Input Format

The first line of input consists of an integer N, representing the number of rows and columns.

The following N lines consist of N space-separated integers, representing the 2D array elements.

Output Format

The first line of output prints "Sum of the main diagonal: " followed by an integer, representing the sum of the main diagonal.

The second line prints "Sum of the secondary diagonal: " followed by an integer, representing the sum of the secondary diagonal.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3

1 2 3

4 5 6

7 8 9

Output: Sum of the main diagonal: 15

Sum of the secondary diagonal: 15

Answer

// You are using Java

```
import java.util.Scanner;
```

```
public class Main {  
    public static void main(String[] args) {  
        Scanner sc = new Scanner(System.in);
```

```
        int n = sc.nextInt();  
        int[][] matrix = new int[n][n];
```

```
        for (int i = 0; i < n; i++) {  
            for (int j = 0; j < n; j++) {  
                matrix[i][j] = sc.nextInt();  
            }  
        }
```

```
        int mainDiagonalSum = 0;  
        int secondaryDiagonalSum = 0;
```

```
for (int i = 0; i < n; i++) {  
    mainDiagonalSum += matrix[i][i];  
    secondaryDiagonalSum += matrix[i][n - 1 - i];  
}  
System.out.println("Sum of the main diagonal: " + mainDiagonalSum);  
System.out.println("Sum of the secondary diagonal: " +  
secondaryDiagonalSum);  
sc.close();  
}  
}
```

Status : Correct

Marks : 10/10
